FRANKLIN BOILER WORKS CO.

GREEN ISLAND, N. Y.

(FORMERLY ALBANY BOILER WORKS.)

SOLE MANUFACTURERS OF THE FRANKLIN WATER TUBE BOILER.

THIS Company has purchased the Franklin Iron Works from Thomas S. Sutherland, its owner, together with his good will. Mr. Sutherland at the time retired from the boiler trade.

Owing to the rapid increase in business, we have made many additional and extensive improvements to our plant and its equipment. We have recently placed on the market a Water Tube Boiler of our own design, known as the *Franklin Water Tube Boiler*, which we feel represents the latest and most satisfactory developments of this type.

We believe that we are in an excellent position to make satisfactory quotations on all kinds of boilers, tanks, stacks and flume work, as well as on draft tubes, wheel cases, and all kinds of plate and sheet steel work.

Our repairing department is fully organized and ready to meet demands of every nature.

We are confident that we can give the best of work at reasonable figures.

TROY STREET DIRECTORY.

Giving the name of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Second street No. 168 comes, look at Second street, on page 32, and find that Liberty street crosses at 156, and Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

This Company owns the entire water power of the Mohawk River at Cohoes, embracing the celebrated Cohoes Falls. Aggregate fall, one hundred and twenty feet, giving nearly ten thousand horse power. The Company's gate house and dam are among the finest structures of the kind in the United States.

The canals are so constructed as to give a succession of falls from one canal to another, varying in height from twelve to twenty-five feet. The power is leased by the Company, with land for factory building, in perpetuity, at an annual rental of about twenty dollars per horse power, and considering the quality, is the cheapest in the country. It is an unfailing power; and during the past few years, while most of the water powers in the country have failed for a time, Cohoes has had an abundant supply without one minute's stoppage. About one-third of this magnificent power is unappropriated, and appurtenant thereto are some of the finest factory sites to be found anywhere.

Cohoes is situated at the confluence of the Mohawk and Hudson Rivers, about four miles from Troy and ten from Albany, and is eligibly located with reference to New York and other markets, and possesses superior advantages for transportation to market, either by river, canal or railroad, having two canals and two railroads running through it. It is a thriving young city of nearly twenty-five thousand inhabitants, and contains some of the finest cotton and other factories in the United States.

WARD BOUNDARIES.

The city is divided into six wards, bounded and described as follows:

FIRST WARD — All that part of the city included within the following lines, to wit: Commencing at a point in the Mohawk river, where the centre line of Vliet street extended intersects the boundary line of the city; thence westerly along said line and the centre line of Vliet street to its intersection with the Erie canal; thence southerly along the centre of said canal to the centre line of Newcomb street, extended westerly to the centre of the lands of the N. Y. C. & H. R. R. Co.; thence westerly along said line to the centre of said railroad company's lands; thence northerly and westerly along the centre line of said railroad company's lands to its intersection to the northerly boundary line of said city; thence northerly and easterly along the boundary line of said city to the place of beginning, shall comprise the first ward.

SECOND WARD — All that portion of the city comprised within the following lines, to wit: Commencing at a point in the Mohawk river, where the line of Vliet street extended intersects the boundary line of the city; thence easterly and southerly along said boundary line and the centre of the south branch of said river, as it flows easterly of Simmons' island, to a point directly east of the south end of said island; thence in a direct line to the point of intersection of the centre of Pine street, with the centre of the Champlain canal; thence along the southerly boundary line of the second ward of the village (now city) of Cohoes to its intersection with the Erie canal; thence northerly along the centre of said canal to the centre of Vliet street; thence easterly along Vliet street and the line of Vliet street, extending to the place of beginning, shall comprise the second ward.

THIRD WARD — All that part of the city comprised within the following lines, to wit: Commencing at a point, in the centre of the south branch of the Mohawk river, directly east of the south end of Simmons' island, thence southerly along the centre of said south branch to a point where the centre line of Cedar street, extended easterly, intersects the same; thence westerly along said line, and the centre line of Cedar street to the centre of Saratoga street; thence in a direct line to the centre line of Columbia street, where it intersects the centre line of Mohawk street; thence westerly along the centre line of Columbia

street to the centre line of the Erie canal; thence northerly along the centre line of said Erie canal to its intersection with the centre line of Newcomb street, extending in a direct line to the centre line of the New York Central railroad; thence easterly along said line of Newcomb street, and the southerly boundary line of the second ward of said city, as hereinbefore defined, to the place of beginning, shall comprise the third ward.

FOURTH WARD — All that part of the city comprised within the following lines, to wit: Commencing at a point in the westerly bounds of the city where the centre line of Columbia street produced westerly would intersect the same, and running thence easterly along the centre line of Columbia street to the centre line of Mohawk street; thence southerly and easterly along the centre line of Mohawk street to its intersection with the centre line of Saratoga street; thence along the centre line of Saratoga street to its intersection with the centre line of Cedar street; thence easterly along the centre line of Cedar street and the same extended easterly to the intersection thereof with the centre line of the south branch of the Mohawk river; thence along said last mentioned centre line of said south branch of the Mohawk river to its point of intersection with the boundary line of said city near Dyke avenue; thence in a southerly direction along said boundary line to its point of intersection with the southerly boundary line of said city; thence along said last mentioned line to the westerly boundary line of said city; thence along said last mentioned line to the place of beginning, shall comprise the fourth ward.

FIFTH WARD — All that part of the city included within the following lines, to wit: Commencing at a point where the centre line of the Erie canal intersects the centre line of Columbia street; running thence northerly along the centre line of the Erie canal to a point where it intersects the centre line of Newcomb street extended, in a direct line to the centre of said canal; thence westerly in the direct line of Newcomb street extended to the centre line of the lands of the New York Central and Hudson River Railroad Company; thence northerly along the centre line of said lands to the northerly boundary line of said city; thence westerly and southerly along the northerly and westerly boundary lines of said city to their point of intersection with the center line of the Boght road (now called Manor avenue); thence southerly along the westerly boundary line of said city to the centre line of Columbia street; thence easterly along the centre line of Columbia street to the place of beginning, shall comprise the fifth ward.

SIXTH WARD — All that part of the city comprised within the following lines, to wit: Commencing at a point in the centre line of that portion of the south branch of the Mohawk river flowing between Simmons' island and Van Schaick's island where the same is intersected by the center line of Ontario street; running thence in a northeasterly direction along the centre portion of said south branch of said Mohawk river to the northern boundary line of said city; thence along said last-mentioned line to the easterly boundary line of said city; thence southerly along said last-mentioned line to a point in the Hudson river east of the mouth of the middle sprout of the south branch of the Mohawk river; thence westerly along the centre line of said middle sprout to the centre of said south branch; thence northerly and westerly along the centre of the said south branch to the place of beginning, shall comprise the sixth ward.

THE TROY DAILY PRESS

Has a commanding circulation, excelling by thousands any of its contemporaries. It is read by all sorts of people, but more universally in the homes of the great middle class, which forms the backbone of the purchasing public. Its local advertising patronage is the largest, and the leading merchants of Troy freely acknowledge that the benefits accruing from THE PRESS transcend those from any other medium. It is a COMPLETE NEWSPAPER, with miscellaneous and unique features, pictorial and others, to enhance its sales, and every department is carefully edited. In brief, THE TROY PRESS speaks for itself, and any trained advertiser will discern its character and evident prosperity by scrutinizing its pages. Convenient in form, neatly printed, and habitually giving the fullest and freshest news, it challenges comparison and invites the attention of all up-to-date advertisers in legitimate lines of trade.

TALENT, workmanship, excellent stock and equipment enter into the success of our business. There is no business that demands so much from the maker as successful monument building, and to have won and maintained success is to merit it.

This we have done, and have been successful to such a degree that we can give and guarantee to you better service than any other house, and at a less cost.

We want to talk with you—a personal interview will convince you of our assertion.

ALWAYS SHARP SHOD WITH THE NEVERSLIP

ONE TRIAL WILL CONVINCE YOU.

Your horse being **always sharp shod**, is **ready for work.** His feet are **always** in good condition, and he is **not** constantly at the blacksmith's being sharpened, which ruins his feet, causing great expense and loss of time to you. Remember, once shod with "Neverslips" you can easily put in new Calks when needed **without removing** the shoes.

BE SURE your horse-shoer has "Neverslips" on hand; have him SHOE WITH NO OTHER. Send your address for Descriptive circular with full information, MAILED FREE.
